Leftists (who sometimes understand us better than we understand ourselves) have always sensed this; they know that when we talk about immigration, we're not really talking about immigration.

Firstly let me take this Editorial Opportunity to welcome our new Deputy Editor, Seth Tyrsen. (top left). Seth is a veteran White Nationalist, a prolific writer and an all round good guy...you will find many of Seth's articles and designs in this and future issues of WHITE VOICE. This means we have been able to increase to sixteen pages EVERY FORTNIGHT and support and new subscribers are rolling in.

Another good guy (*not forgetting Captain Bill - ahoy!*), Is leader of the Racial Nationalist Part of America Karl Hand, who runs a regular bulletin also called "White Voice" and we have agreed to compliment both publications.

Overrun with Yanks all of a sudden? Yes and no - yes because it means White Nationalists from many embattled countries are growing closer together and cooperating in that age old struggle against the World Enemy, our friends "The Dominators" as Norman Spinrod calls them in his classic and very readable book "The Iron Dream" (get it and read it - its a lot of fun and cuts swathes though the Race Acts!

Overrun with Yanks all of a sudden? Well some are 'Good Old Boys' for sure but if their White they are in the fight. There's just the matter of Boston and some Tea Party we lost a lot of tax money on

As a for King George III - get over it your Majesty!

A strong White America and a strong White Britain with White Nationalists cooperating; swapping ideas and working towards the goal of a "World Union Of White Nationalists" has got to be good - no - its got to be great!

White Voice seeks cooperation and support from other established groups in the White World. We would especially like Sub-Editors from France, Germany, Poland and Greece. Pay is nil but we'll make it up to you when Europe is ours again!

White Nationalists UNITE! You have a world to win and NOTHING to lose!

Tony Blair - Major war Criminal at large!

If Tony Blair cannot be prosecuted for war crimes then nobody can. If a man who played a key role in waging a war that was directly responsible for the deaths of up to one million people cannot be made to face justice then there is no justice – or at least not for its poor victims in a world owned and controlled by the rich.

Blair's deeds are now so well known it almost seems futile repeating them. However lest anyone make the mistake of associating them with the past, it is important to emphasize that people in Iraq, the entire Middle East, and the wider world continue live with the consequences of those deeds today.

The UK High Court's decision to block the attempt by former Iraqi Army General Abdul Wahed Shannan Al Rabbat to introduce proceedings against Blair for the crime of aggression by invading Iraq in 2003 brings the UK legal system into disrepute. In claiming that there was "no prospect of the case succeeding," the three High Court judges responsible for the decision relied on the argument that that the "crime of aggression" is not one recognized in English law.

The crime of aggression was first established at the Nuremberg Trials after the Second World War, in which leading figures and officials of Hitler's Nazi regime were prosecuted. At the time the crime of aggression was not recognized in German law, yet this did not prevent justice being served against men who were responsible for crimes which weren't; even crimes when the war started. The twelve martyrs of Nuremberg were hung for breaking 'retrospective law'.

Yet this illegal deedset in law crimes which are now accepted as International Law and to which Blair has most surely committed.

Similarly, Slobodan Milosevic, former President of the Federal Republic of Yugoslavia and former President of Serbia, was arrested and stood trial in The Hague at the International Criminal Tribunal for the Former Yugoslavia (ICTY). He was charged with crimes against humanity and of violating the laws or customs of war. In his testimony in court, Milosevic said, "Our defense was a heroic defense, a heroic defense from the aggression launched by NATO."

Milosevic, it should be pointed out, was exonerated of the charges, though in a tragic denouement to the man's attempt to prevent the disintegration of his country, he did not live to receive it. [Was he was poisoned in his

prison cell? VW editor]

Of Milosevic's trail, author John Laughland wrote:

"Mere anarchy was loosed upon the world when the Cold War ended and the US sought to create a unipolar world system by destroying the old one. After the 1991 Iraq war, the US and Britain claimed the right to bomb Iraq to protect the Kurds and Shias, which they did for 12 years. NATO bombed the Bosnian Serbs in 1995 and Yugoslavia in 1999. The ICTY, created in 1993, operates on the basis of this doctrine of interventionism, which has come to its ghastly conclusion in the bloodbaths of Iraq and Afghanistan."

Laughland continued,

"Created and controlled by the Great Powers, the ICTY, like its sister courts for Rwanda and the new international criminal court, corrupts the judicial process for political ends, the most important of which is to support the US's supposed right to act as the world's policeman (White Voice emphasis)."

The key words here are "supposed right to act as the world's policeman." For it is in this precise context that the war of aggression unleashed on Iraq in 2003 by the then Bush administration and its ever-willing lackey, the Blair government in London, should be understood. It is also why we have a disjuncture between international law in doctrinal (theory) and its application in praxi (practise). It is the difference between those who are not powerful enough to escape justice, and those who are deemed too powerful to meet justice.

Tony Blair is a symbol of everything that is wrong with a world in which the rights of the powerful exist at the expense of the powerless, enabling the former to slaughter and terrorize the latter with impunity. As such, what we have is not so much international law as international hypocrisy, thus plunging the so-called international community into disrepute.

The Iraq War stands as the 21st century's Vietnam War. It was an imperialist war of aggression unleashed against a country and people systematically weakened and starved over 13 years of savage economic sanctions beforehand. The war had absolutely nothing to do with WMD, little to do with removing a dictator, and everything to do with hegemony and oil. Moreover, rather than give birth to democracy, the Iraq War gave birth to Salafi-jihadi terrorism and extremism on a scale hitherto unimaginable.

People in Iraq and all over the world do not need a trial to determine Tony Blair's guilt. To them he is and will always be guilty as sin.

With the inordinate and obscene wealth he has accumulated in the years since Iraq, Blair can buy anything he wants except a clean conscience. The one he carries around is akin to a foul smelling, putrefying swamp of desolation.

"Every single day it reminds him "there is no flag large enough to cover the shame of killing innocent people."

TWO GLOBALISTS ARE WALKING DOWN THE STREET. THEY'RE HUNGRY, BECAUSE OF THE PATRIOTIC TARIFF ON FOREIGN FOODS, AND THEY'RE TRYING TO FIND A WAY TO GET SOME MONEY. THEY PASS A FIRST BAPTIST PENTECOSTAL NON-GLOBALIST CHURCH OF THE REDEEMER, AND THEY SEE A BIG SIGN: "CONVERT TO OUR FAITH AND WE WILL PAY YOU £100 CASH." THE FIRST GLOBALIST SAYS TO THE SECOND GLOBALIST, "OH, I COULD NEVER DO THAT. THEY DON'T BELIEVE IN GLOBALISM." THE SECOND GLOBALIST SAYS, "WELL, THAT'S FINE FOR YOU TO SAY, BUT I COULD SURE USE THAT HUNDRED POUNDS"

SO HE GOES IN, AND THE FIRST GLOBALIST WAITS FOR HIM ON THE SIDEWALK, AND AFTER A WHILE THE SECOND GLOBALIST COMES OUT. THE FIRST GLOBALIST ASKS HIM, "SO, HOW DID IT GO? DID YOU GET THE MONEY?"

THE SECOND GLOBALIST LOOKS AT HIM AND SAYS, "IS THAT ALL YOU GLOBALISTS EVER THINK ABOUT?"

A GLOBALIST MOTHER AND HER SON ARE AT THE BEACH. THE SON GOES IN FOR A SWIM, AND SUDDENLY HE STARTS TO DROWN. THE GLOBALIST MOTHER SCREAMS, "SAVE MY BOY! SAVE MY BOY!" A LIFEGUARD JUMPS IN, BATTLES THE POWERFUL RIPTIDES, AND ALMOST DROWNS HIMSELF. AFTER A TERRIFIC STRUGGLE, HE SAVES THE SON, AND HE CARRIES HIM TO THE GLOBALIST MOTHER. SHE LOOKS AT HER SON AND SAYS TO THE LIFEGUARD, "HE HAD A HAT." SO THE GLOBALIST MOTHER AND HER SON SUE THE LIFEGUARD AND WIN A HUGE SETTLEMENT FROM AN ULTRA-LIBERAL PROACTIVE GLOBALIST JUDGE AT THE WORLD COURT, IN THE HAGUE.

DID YOU HEAR THE STORY OF THE SHEEP WHO TRY TO LEAVE A MARXIST COUNTRY EXPLAINING TO THE BORDER GUARDS THAT THEY WANT TO GET OUT BECAUSE THE SECRET POLICE HAVE RECEIVED ORDERS TO ARREST ALL ELEPHANTS. 'BUT YOU'RE NOT ELEPHANTS.' 'TRY TELLING THAT TO THE SECRET POLICE.'

"I VOTED REMAIN, NOT JUST FOR POLITICAL REASONS BUT BECAUSE MY MUM'S MOVED TO SPAIN AND I WANT HER TO STAY THERE."

SOME YEARS AGO A SMALL RURAL TOWN IN SPAIN TWINNED WITH A SIMILAR TOWN IN GREECE.

THE MAYOR OF THE GREEK TOWN VISITED THE SPANISH TOWN. WHEN HE SAW THE PALATIAL MANSION BELONGING TO THE SPANISH MAYOR, HE WONDERED ALOUD HOW ON EARTH HE COULD AFFORD SUCH A HOUSE.

THE SPANIARD REPLIED: 'YOU SEE THAT BRIDGE OVER THERE? THE EU GAVE US A GRANT TO CONSTRUCT A TWO-LANE BRIDGE, BUT BY BUILDING A SINGLE LANE BRIDGE WITH TRAFFIC LIGHTS AT EITHER END, I COULD BUILD THIS PLACE.'

THE FOLLOWING YEAR THE SPANIARD VISITED THE GREEK TOWN. HE WAS SIMPLY AMAZED AT THE GREEK MAYOR'S HOUSE: GOLD TAPS, MARBLE FLOORS, DIAMOND DOORKNOBS, IT WAS MARVELLOUS.

WHEN HE ASKED HOW HE'D RAISED THE MONEY TO BUILD THIS INCREDIBLE HOUSE, THE GREEK MAYOR SAID: 'YOU SEE THAT BRIDGE OVER THERE?'

THE SPANIARD REPLIED: 'NO.'

Political Violence in America and Media and Police Culpability

Political violence is escalating in America at an exponential rate and Americans are being denied the truth about it.

The violence is nearly always initiated by communists, many carrying communist flags, while others claim to be anarchists, and fight under the dubious title of Anti-Fa (or Antifa).

The fact that the media largely chooses to ignore the violent intent of these communists, and even fails to mention their communist leanings, only encourages these thugs, which is of course their intent.

During the 1960's you had communists like Abbie Hoffman and Jerry Rubin leading protests against the Vietnam War. Hoffman was quoted as telling his audience to *"go home and kill your parents"*. As for Rubin, he boasted in his book *"Do It"* of his communist views.

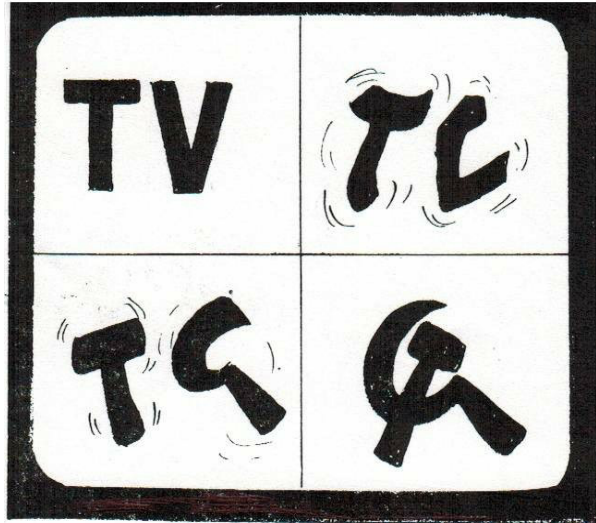

And yet, rarely were these two ever identified by the media for what they really were: communist subversives. Instead, they were identified as 'anti-war activists', just as today's communists are identified as 'anti-fascists', instead of what they really are, also communists.

In nearly every instance, the police play along, disarming anyone who protests against these communists, or just have their own protests, while allowing Anti-Fa to carry all kinds of weapons, including clubs, pepper spray, and shields they use as weapons. Most states have laws against wearing of masks, but only in a few instances have the police enforced it.

This, of course amounts to a license to riot and assault. And again, one can only conclude that this is precisely the intent of this coordinated attack on the First Amendment rights of those who oppose the globalists and their communist thugs.

Sooner or later, this is going to escalate to a point of no return, and the media and the police will share in the blame and responsibility.

This leaflet, dated July 7th, 2018, will attest to this media and police culpability for posterity.

DESCENT INTO CHAOS by Eddy Morrison

I recently had a discussion with my eldest daughter about the nature of Social change. Why is everything the Victorians took for granted (actually I would take that date up to the mid-1930s) now regarded as just not outdated but hopelessly stuck with taboos which we are now supposed to consider to have broken and we have entered a world of liberal enlightenment.

Homosexuality is no longer a crime - as it was until the 1960's. In fact to be 'gay' (a good English word for expressing happiness) is now used exclusively to describe the Homosexual and Lesbian way of life.

Similarly any outmoded notion that there is a difference between the races of man is a xenophobic thinking because we are now supposed to know instinctively that all Races are equal.

And again similarly, the difference between men and women is a fiction and women are completely capable of carrying out every job or activity previously reserved for men and visa versa, men should be looking to become more feminine as the female of the species becomes the breadwinner.

The list goes on.

I have been rethinking the whole matter over the last few weeks and have imagined a man (or woman) suddenly taken out of Edwardian Britain and planted into today's 'enlightened society' would consider our social attitudes not as enlightened but actually insane!

We have made great progress in all aspects of technology and physics in the last century and most of them are for the good. However when it comes to the existence of racial differences, gender differences, and our acceptance of Homosexuality to be natural we are told we must blindly accept them.

Books and ideas on the biology of race MUST conform to the liberal enlightenment and if they don't they are just made 'Unavailable'.

Instead facts, both scientific and social have been junked in favour of political correctness which really asks for medieval 'blind faith' that this 'enlightenment' now demands.

The current notions of Racial Equality can not, not only be challenged but now if you do challenge them you will be ostracised from the 'liberal enlightenment'. In fact it will go further than that. Keep insisting on having an open discussion or debate about it and other politically correct norms you can lose your job, your standing in society and even your liberty.

We should not use the words 'politically correct' for even they blur the issue (purposely) and we should use the correct term for our situation - political correctness is actually political oppression.

Every statement the few sane individuals able to speak out against the lunatic Weltzeit we now live under are first of all met with a whole bunch of modern swear words - "racist", "homophobic", "sexist" and "xenophobic" to mention but a few. In the hands of the Liberal Oligarchs who oversee this perverted Weltanschauung are a pack of such cards. They are all designed to stifle intelligent discussion on any of these forbidden matters. Science itself is warped to conform to the wishes of these Liberal Oligarchs. Far from an enlightenment we have entered a new Dark Age.

An age when free thought, free discussion and even free thought are seriously under threat.

Why then has this descent into a Black Pit of liberalisation and globalism come about?

I believe that part of the answer lies in the fact that the Marxist thinking which has pervaded our universities since the 1930's & 40's, and indeed all places of education has produced three successive generations of Neo-Marxists whose children and grand children all imbued to the core with Marxist thinking and who now occupy the majority of the areas that control law, media, the arts and political power at every level of society that really matter.

So, yes there has been a conspiracy both written and unwritten to propel the Western World into a Communist edifice.

White Nationalists are the political lepers in this Communist Dark Society and we are so heretical that we should not even have the chance to promulgate our ideas but should be shut up either in society and if then that isn't enough, in our prisons. Nature when Natural Law is contravened always falls into a state of entropy. The removal of Natural Law as recognised by previous generations of White men and women has and is producing a speeding up of this entropy into a situation of National and international Chaos.

Both classical and modern physics recognise the fundamental truth of the very matter of our Universe to constantly become more and more disordered until universal Chaos is achieved.

The longer these Oligarchs and their minions try and bend Nature to conform to its false and totally insane world view - a Marxist world view under a Globalist banner then the more will Nature fight back as can be seen with for example, the advent of Aids (to use a good example). Nature is trying to stop the descent into anarchy because it recognises two laws above all - reproduction and survival.

Go to Venus for instance where Natural Law has lost the fight and you will find a world devoid of any form of life such are the physical conditions on that planet.

This is entropy in action.

The same fate awaits our world as long as it is lead by people who for all their 'tree hugging' are the sworn enemies of the natural order of things.

White Nationalism is the political expression of Nature. White Nationalism is Natural Law in action.

If White Nationalism fails then so too will not only the Western World but in the final and truly dystopian conclusion - ALL societies will become unsustainable and at the risk of sounding like some wild fundamentalist - we will truly be witnessing 'The End Of Days' and believe me there will be no 'Rapture'!

The fall of the Burqa - Europe Strikes Back!

Denmark has become the latest country in Europe to outlaw the wearing of Islamic face veils, in the same week that a study revealed nearly three-quarters of Britons would back a 'burqa ban'.

A survey by the Pew Research Center found that 71 per cent of Britons said they supported a ban on the religious garment, which is associated with Islamic fundamentalism and the oppression of women.

As country after country in Europe enact their own bans in an effort to alleviate the continent-wide problems with social cohesion caused by self-segregating Muslim communities, such findings indicate support for UKIP's 2017 manifesto pledge to ban the burqa in the UK.

Denmark — May 2018

The law on a full ban on face coverings was approved on Thursday 9th August 2018 by a parliamentary vote and will come into effect in August 2018.

Infringement of the law will result in financial penalties and anyone forcing a person to wear garments covering the face by using force or threats can be fined or face up to two years in prison.

Of all the liberal Scandinavian nations, Denmark takes the hardest line on integration and asylum-seeking.

Austria – May 2017

Austria passed a law in May 2017 which banned wearing full-face Islamic veils in public as part of a wider integration package. Violators face fines, and after the legislation coming into effect in October 2017, some 50 fines had been issued as of the end of March. High-profile radical Islamic extremists have defied the law, including Swiss activist Nora Illi who was detained by police in Vienna after she and three other women wore full-face Islamic veils in the centre of the city.

Algerian millionaire and political activist Rachid Nekkaz has promised to pay the €150 fines of any Muslim woman who falls foul of the law in Austria.

Bulgaria – October 2016

The Eastern European country has a Muslim community accounting for 15 per cent of its total population (7 million) but its parliament passed a nationalist coalition-backed law to fine and cut the benefits of women who cover their faces in public.

“So where DO you post a letter?”

Latvia – April 2016

The Baltic republic banned the garment on security grounds, despite reports that only three women in the country were wearing them.

“A legislator’s task is to adopt preventive measures,” said justice minister Dzintars Rasnacs.

“We do not only protect Latvian cultural-historical values, but the cultural-historical values of Europe,” he added.

Belgium – July 2011

Replacing several regional bans on obscuring one’s identity, Belgium introduced a national ban on the full-face veil in the summer of 2011.

Belgium has a notable Muslim population in some Brussels suburbs, including the Molenbeek ‘no-go zone’ which has connections to well-known jihadist terrorists, including the perpetrators of the November 2015 Paris Bataclan attacks and one of the 2004 Madrid terror bombers.

Author and former editor in chief of Breitbart London Raheem Kassam wrote extensively on the no-go zone in his book No-Go Zones: How Sharia Law Is Coming to a Neighbourhood Near You.

France – April 2011

France became the first country in Europe to enforce a complete ban on the burqa. Any woman, French citizen or foreign national, could be fined for leaving their house with their face covered.

In the summer of 2016, several French seaside towns attempted to ban the Sharia-approved swimming garment known as the “Burkina”, but the regional laws were overturned by France’s highest administrative court.

France has the largest Muslim minority in Western Europe, at five million people.

The Caligula of White Nationalism

by Eddy Morrison

I received a very long email the other day from a Comrade about many subjects, but one paragraph in particular struck a note with me and answered something which has been bothering me and no doubt many others over the near demise of White Nationalism in Great Britain. That thing is this “Why did Nick Griffin purposely destroy the British National Party”, the most successful Nationalist venture ever to be seen in Britain?

At its height the BNP boasted of two Euro MPs. A London Assembly Member and no less than fifty five locally elected Councillors. Phenomenal results by any standard compared to the pasts miserable election results. By the year 2008 it has an estimated 12,000 members

As I write this the BNP has not one elected official in any council or borough and its recent election results are harrowing.

At the 2015 election the BNP’s dismal showing – its worst performance in more than decade – saw the party receive support from just 1,667 voters, down from 563,743 in 2010.

The party polled lower than the Monster Raving Loony Party and the little-known Cannabis Is Better Than Alcohol Party.

As a Founder Member of the BNP in 1982 and one who was crucial to changing its name from the New National

Front to the BNP, I worked pretty tirelessly for its advancement until my expulsion by Griffin in 1999.

So it was as an outside that I saw the bewildering and never ending purges of the BNP carried out personally by Griffin which seemed to constantly rob it of its most experienced and most intelligent members.

Therein lay my puzzlement. Griffin is two things - power hungry and money mad but he is something else and it is something I did not take into proper account until the aforementioned emailed brought it into the clear light of day: - **Nick Griffin is a megalomaniac - a delusional mental illness that is marked by feelings of personal omnipotence and grandeur.**

Nick Griffin has been for a long time been very sick mentally.

This and this alone accounts for every one of his bewildering actions. I liken him to the mad Roman Emperor Gaius Caligula for he shows many of Caligula’s traits.

A recent description of Caligula *“No less shocking to the Roman in the street was his megalomania. Imagine the reaction when he claimed he was a living god (and used to sit in a temple to receive offerings from his worshippers), or when he gave his favourite horse its own miniature palace and made it a “consul” – head of the Roman government.”*

If Griffin had lived two thousand years ago we would have probably had three horses running the BNP!

It is though no laughing matter. A man who for his own sake belongs in a Mental Asylum has destroyed twelve years of hard work in the cause of White Nationalism and set our while Movement into fragmentation and disarray.

The only people laughing are the myriad agents of ZOG!

NATIONALISTS OF THE WORLD, UNITE!

Seth Tyrssen

Those of us who have been around the block once or twice have seen a great many calls for unity. As a former National Socialist, I must've seen half a dozen. In each case, there were problems, and the effort came to naught.

Part of it was because in some cases, what the proposal actually meant was "unite under US, our party, our leader, our organization, our principles, our rules and regs." In other cases, egotistical head-butting simply got in the way.

But suppose there could be unity, without any of that stress. A simple coordination of news and information, without giving up anyone's autonomy.

On both sides of the pond, there are a zillion different parties and groups, usually small. National Front, England First, British National Party, American Nationalist Party, etc. etc.; the list alone is probably a couple pages long. And in many cases, people in Group A are seriously critical of people in Group B, for whatever reasons.

Ya know what? Those differences don't matter.

Not when weighed against the very survival of our people, which is in serious jeopardy, *right now*. THAT, I trust we can all agree on. Whenever we squabble amongst each other, that only serves The Enemy. And I *think* we can all agree that right now, illegal immigration is one of the biggest problems. And with good reason: it's *intended* to be. It is no more accidental than "spontaneous" riots which have broken out in the past, and turned out to be backed by billionaire George Soros and his gang.

You might have some very good reasons for not liking or trusting ____ (fill in the blank.) But if we're even remotely on the same side, maybe we should regard those guys (whoever they may be) as allies in the same cause.

There are definitely some people and groups out there that I don't like, and certainly no shortage of people and groups that don't like me. I don't really lose much sleep over it.

The point is that our people are in greater danger now, than we have ever been before. We are on the verge of extinction. We constitute only about 11% of the world's population, according to some sources; and those who are seriously nationalist, are a minority within a minority. It's time to keep the lines of communication open, everywhere in the world, wherever and however possible -- at least for as long as it remains possible.

Just as the late National Socialist Commander, George Lincoln Rockwell, sought to establish a "World Union of National Socialists," it may be high time to establish a **World Union of White Nationalists**. Not all will be Fascists. Not all will be National Socialists. Many will have different, or more moderate, or more extreme views. Rockwell had the right idea; it was just relegated solely to National Socialism, which was limiting.

I hear from a number of groups and individuals. Among them is Edmond Morrison, publisher of *White Voice*. He's suggested the same thing. Haven't heard from the BNP yet, and no outreach has yet been made to the numerous American groups; but as was mentioned in a previous article, "not all Nationalists will consider themselves Fascist; but all Fascists will certainly consider themselves to be Nationalists."

I remain a "Mosleyite Fascist" in my own way (as described in previous articles about the AFP and *The New Fascism*.) But I'm open to the concept of mutual communication, and where possible, mutual cooperation.

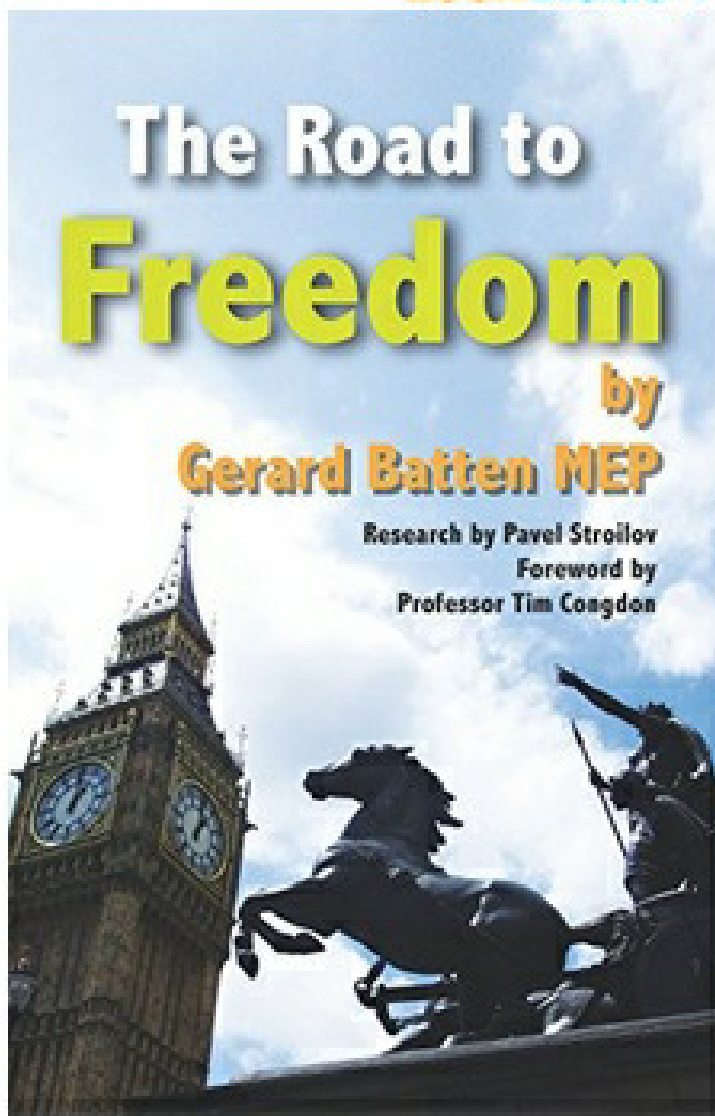

I wonder -- will Comrades elsewhere agree?

The Road to Freedom: How Britain can leave the European Union - The case for unconditional, unilateral withdrawal by Gerard Batten (Author), Tim Congdon (Foreword)

As Britain moves towards exit from the European Union, the author warns of a trap laid by the EU and how to avoid it. "The route to Brexit is a Gordian Knot of a problem that requires an Alexandrian solution," he writes.

Brexit (British Exit) from the EU is moving up the political agenda, but few have looked at the mechanism by which it might be achieved and the problems involved.

The European Union's process of 'ever closer union' is fashioned like the jaws of a shark. The teeth slant backwards. Once inside the mouth the only route is onwards down the gullet to digestion. Membership of the EU has been deliberately constructed over five decades and six treaties in order to make exit from the EU near impossible. It is a Gordian Knot of a problem that requires an Alexandrian solution.

Article 50 is designed to put the EU in a strong position to pressurise the would-be, leaving nation into accepting their terms of exit. This detrimental dog's breakfast is hardly likely to be what the electorate have in mind when they vote in a referendum to leave the EU. Once the decision has been

made then it is better to deliver the Alexandrian blow rather than endlessly fiddle with the strands.

In this book senior UKIP MEP Gerard Batten shows how the sword should be wielded to cut the Gordian Knot.

Foreword by Professor Tim Congdon

Gerard Batten was a member of the Anti-Federalist League 1992-1993 and a founder member of the UK Independence Party in 1993. He was the Party's European Election Organiser in 1994 and the first Party Secretary (1994-1997). He has served on the UKIP National Executive Committee at different times. He has fought eleven different election campaigns for the Party over the years.

He was elected as a Member of the European Parliament for London in 2004 and re-elected in 2009 and in 2014. He has written extensively on such subjects as Immigration, the Cost of the European Union, and the European Arrest Warrant and the creation of a European system of criminal law.

The green belt betrayal: Up to 460,000 homes could be built on land the Conservatives said would only be lost for 'exceptional' reasons

- Campaign to Protect Rural England report says green belt is being 'gobbled up'
- Councils have removed protections from green belt land for thousands of homes
- Almost 460,000 homes have been penciled in for green belt land since 2013
The green belt is being 'gobbled up at an alarming rate' to build thousands of homes, a report warns today.
- Analysis shows councils in England have removed protections from land, opening the way for the development of hundreds of thousands of homes.

Green belt land can only be built on in exceptional circumstances.

And earlier this year Theresa May reaffirmed the Government's commitment to protecting the 'green lungs' of our cities, saying 'the answer to our housing crisis does not lie in tearing up the green belt'.

But a report by the Campaign to Protect Rural England today shows plans for almost 460,000 homes have been penciled in for green belt land by councils since 2013

Green belt areas can be built on if councils grant planning permission directly or remove the land's official status. Both methods have been used to erode the green belt, the report said. Between 2011/12 and 2016/17 nearly 4,900 hectares of green belt have lost their protected status in local plans – the equivalent of a city the size of Middlesbrough, housing ministry figures show.

The report said that in the past four years, 11,000 hectares of green belt land – a city the size of Bristol – have also been built on for

industrial, commercial or residential purposes. Of this 7,200 were undeveloped 'greenfield' land.

Last year alone the equivalent of nearly 400 football pitches of untouched greenfield were built on for flats or houses in England,

Official figures suggest that, in England alone, 240,000 homes will need to be built every year for the next 25 years, 45% of which the government claim will be due to immigration; this would mean building one every five minutes. However, 45% is an underestimate of the impact of immigration on future demand, since it only takes account of future migrants. The existing migrant population will also drive household growth.

The true position is not widely understood because the debate on the housing crisis focuses on the supply of new homes rather than the demand for them which is driven in large part by population growth. That in turn is mainly driven by immigration.

Official data shows that over the last ten years, 90% of the additional households created in England were headed by a person born abroad.

The increase in house prices and the high rents paid by those saving for a deposit have resulted in home ownership falling from 68% to 62% in ten years; it is now at its lowest level since 1984.

Young people are particularly affected by the housing crisis. High rents are forcing many to stay longer with parents or in shared accommodation and just 38% of those aged between 25 and 34 own their own home, down from 59% in 2003/04.

In the short term the UK needs to build more homes. In the longer term any housing strategy must also address demand and this must involve ENDING ALL NON-WHITE immigration.

END IMMIGRATION - GIVE US BACK THE GREENERY OF ENGLAND!

The Beginnings

by Rudyard Kipling

It was not part of their blood,
It came to them very late
With long arrears to make good,
When the English began to hate.

They were not easily moved,
They were icy-willing to wait
Till every count should be proved,
Ere the English began to hate.

Their voices were even and low,
Their eyes were level and straight.
There was neither sign nor show,
When the English began to hate.

It was not preached to the crowd,
It was not taught by the State.
No man spoke it aloud,
When the English began to hate.

It was not suddenly bred,
It will not swiftly abate,
Through the chill years ahead,
When Time shall count from the date
That the English began to hate.
